WHY DO TRAINING & ASSESSMENT?

This qualification provides participants with all the skills and knowledge required to deliver training in an industry area or work specific expertise, and conduct competency-based assessment in a wide range of work based contexts.

The course is aimed at participants who can access a training and assessment environment and requires a high level of language and literacy skills, plus basic computer knowledge.

There are twelve core units of competency and two electives that make up the TAA40104 Certificate IV in Training and Assessment. These are packaged and delivered over four clustered groups.
